

Filtration Instant Hot Water Dispenser

Specification

Product Name	Filtration Instant Hot Water Dispenser		
Model	ST-W32	Power Rating	220-240V, 50Hz, 2000W
Housing Material	Stainless Steel	Water Capacity	3.0L
Heating Model	Instant Heater	Temperature Setting	8 Setting
First Drop Water	3 Seconds	First Drop Water Temp.	98°C
IOT Function	Optional	Filtration	Optional (ACF/Resin)
Product Dimensions(mm)	136*353*266	Package Dimensions(mm)	437*196*345
Flow rate	0.6L	Filtration precision	0.001-0.02 μm
Filtration Capacity	600L(ACF)	Display	Digital Display
Water outlet Setting	2 (100/150/200/250/300/350/400/450/400/550/600/650) ml		
UVC sterilize	150mW UVC LED		

Features

1. Filtration & Sterilization: Ensures clean, safe water with cutting-edge filtration and UVC sterilization.
2. Tabletop Design: Compact and installation-free for easy access in any kitchen or office.
3. Multi-Layer Filtration: Removes particles, odors, and tastes for refreshing hot water.
4. Instant Hot Water: Enjoy piping hot water instantly with just a touch.
5. AIOT Integration: Smart features for convenience and control from your smartphone.
6. Patented Design: Backed by 6 patents for innovation and quality assurance.
