

Filtered Water Bottle

HB612

Features

Multiple certifications

This sports water bottle has obtained many international authoritative certifications, such as ISO, FDA, NSF, SFS, ROHS and BPA, which fully proves the quality and safety of this water cup. At the same time, the water cup also passed the PH test. The PH value of the filtered water is between 9 and 9.5. The PH value in this range is very beneficial to the human body, which can better promote the acid-base balance of the human body and maintain health.

Certifications

We have obtained ISO FDA NSF SGS ROHS BPA FREE and other certifications for different market requirements

Filteration principle

This water bottle uses multi-layer PP pad filter, imported carbon fiber, imported coconut activated carbon, deep-sea coral extraction ore and non-woven fabric and other multi-layer filter materials to filter water quality. These filter materials can effectively remove residual chlorine, odor, granular impurities and harmful substances in the water, kill some bacteria, and effectively improve the taste of water, so as to obtain the water purification of natural mineral elements.

Appearance

According to the information you provided, this water bottle is currently available in two colors, black and green, with a capacity of 740ml. The bottle cap is made of food-grade material, dustproof and leakproof, and the bottle body is made of tritan material, which is environmentally friendly and durable. In addition, a non-slip silicone grip is also used in the middle of the bottle, which is softer, convenient for users to hold and more comfortable. In a word, this sports water cup is fashionable, practical, safe and healthy. It is a high-quality, environmentally friendly and durable sports water cup.

Customizable

This sports water bottle can be customized, and customers can customize the logo, color and packaging of the bottle according to their own needs. This customized service can meet the personalized needs of customers, enhance the added value of the product, and also help to enhance the appearance and attractiveness of the product. This water cup can be used in outdoor sports, fitness, travel and other occasions, which is very convenient and practical.
