

# White Noise Sound Machine

HSM-1

# Features

---

# The principle

---

The product causes airflow to pass through the ventilation hole through the motor rotation, thus producing the sound of the wind like nature, relaxing the body and mind, and shielding a wide range of noise to improve sleep quality.

## 产品功能

通过电机转动引动气流穿过透气孔，而产生如大自然的风声  
令人心身放松，有效屏蔽广泛范围的噪音  
舒缓压力，帮助入睡，提高睡眠质量

改善失眠状况

提升睡眠质量

安抚宝宝入睡

屏蔽恶劣噪音

提高工作效率

# Assist the baby's sleep

---

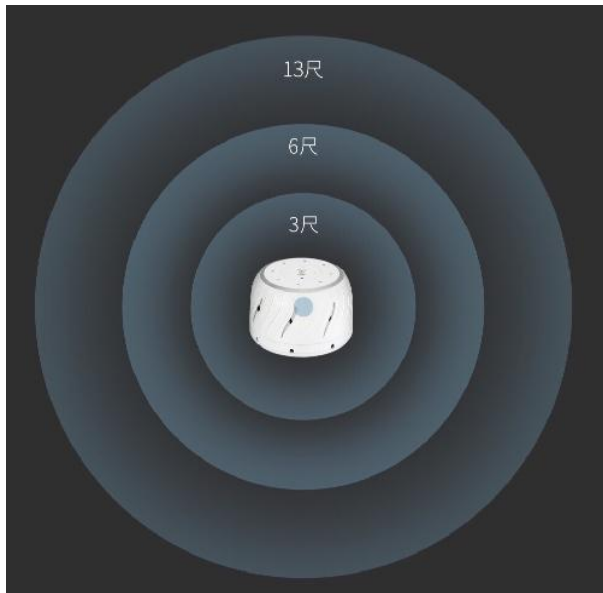

The white noise sound machine can simulate the sound of the uterine environment by playing white noise to help the baby fall asleep. These sleepers usually have a variety of different white noise modes and volume adjustment functions, which can be adjusted according to the different needs and preferences of babies.

# Effective noise shielding

---

When sleeping, placing the sleep meter between you and the noise source can reduce the impact of noise on sleep. And white noise can effectively block snoring and make the couple's life more harmonious.

It is not recommended for any age group at a distance of less than 1 foot. For infants and young children, it is not recommended to use it within a distance of 3 feet or 3 feet. If the distance is 3 feet from the user, the decibel range is 58-68, and the distance of 6 feet is 42-53.

# Small size and easy to carry

---

This sleep meter is only 13.8cm in diameter and 9cm high. It is designed to be very small and portable. It can be carried with you when you go out. It is very convenient for people who need to travel or on business trips. It allows you to have a familiar sleeping environment as if you are at home.
