

Features

- 2-speed settings, 3 heat settings, 7 different drying modes for versatile usage in various scenarios.
- 360-degree rotating magnetic styling nozzle for smooth hair styling while drying.
- High-speed brushless motor with 110,000 RPM, generating a powerful airflow of 21m/s, drying shoulder-length hair in 3 minutes.
- Intelligent temperature control technology ensuring efficient hair drying without the risk of heat damage.
- 200 million negative ions per second to neutralize static electricity, reduce frizz, and smooth out dry, split ends, leaving hair shiny and smooth.
- 0.3mm micro-hole intake at the bottom of the handle to reduce the risk of hair getting tangled.
- Multiple noise reduction features, with noise levels as low as 60dB at full speed, eliminating irritating sounds.
- Built-in temperature memory function for instant access to preferred settings upon subsequent use.
- Intelligent real-time display of airflow speed, heat settings, and cold/hot modes for intuitive operation.
- Equipped with a drying handle and night light function, featuring storage functionality.
- PC composite base material for the rear cover decorations, featuring 3D stereoscopic molding and CD texture with a lasting laser effect that never fades.

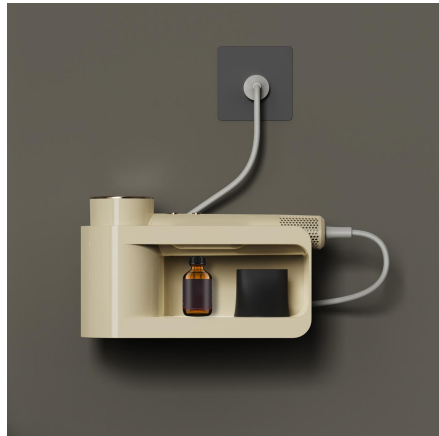

Name	High-Speed Hair Dryer with Digital Display		
Model	ST-GF-02	Dimension per piece	258*89*73mm
Rated Voltage	220V~ 50Hz	Rated Power	1600W
Speed of revolution	110000revs/min	Wind Speed	21.2m/s
Wind pressure	110g	dB-A	60dB
Weight per piece	579g	Wire length	1.8m
Colors	White, Pink, Grey	Negative ions	200 million negative ions
Quantity/Carton	12pcs		
G.W./Carton	14kg	N.W./Carton	13.5kg
Giftbox size	331*161*78mm	Carton Size	488*342*351mm
Intelligent digital display	Wind Speed/Temperature	Accessories	Smooth Nozzle*1, Manual*1, Giftbox*1
Speed and temperature	On/Off, Speed grade 1,2, Temperature hot/warm/cold/Long press for auto-cycling		
Certification	CE/ROHS, FCC/UL/PSE	Power Options	US Standard Plug 110V, EU Standard Plug 220V, UK Standard Plug 230V, AU Standard Plug 220V

Name	High-Speed Hair Dryer		
Model	ST-GF-03	Dimension per piece	258*89*73mm
Rated Voltage	220V~ 50Hz	Rated Power	1600W
Speed of revolution	110000revs/min	Wind Speed	21.2m/s
Wind presssure	110g	dB-A	60dB
Weight per piece	545g	Wire length	1.8m
Colors	White, Pink, Grey	Negative ions	200 million negative ions
Quantity/Carton	12pcs		
G.W./Carton	14kg	N.W./Carton	13.5kg
Giftbox size	331*161*78mm	Carton Size	488*342*351mm
Accessories	Smooth Nozzle*1,Manual*1 , Giftbox*1		
Speed and temperature	On/Off,Speed grade 1,2, Temperature hot/warm/cold/Long press for auto-cycling		
Certification	CE/ROHS, FCC/UL/PSE	Power Options	US Standard Plug 110V, EU Standard Plug 220V, UK Standard Plug 230V, AU Standard Plug 220V
